

I am very concerned about our Nation. We have media conglomerates controlling information, and an American public being left in the dark about so many of the real issues. The latest outrage comes when Sinclair Broadcasting has chosen to pre-empt regular programming in order to air an obviously partisan "documentary" before a presidential election. The former Soviet Union had TV consolidation too, we are at a crossroads and if we can not rely on our regulators to preserve the public airways we are at risk of losing the very republic our ancestors fought to create. Sinclair Broadcasting is breaking election laws and they are magnifying the reasons for why we need media ownership rules. If there is no intervention by the FCC in this blatant partisan hijacking of public airways it will impact the very agency meant for regulation. Sinclair Broadcasting should not be permitted to break the rules, especially in an election year. Why is it citizens see this yet the regulators are not acting on it? We can not have a democratic Republic without balance, fairness and accuracy. Sincerely
